

Praise You

Like a candle made to bear a flame
Like a ship is made to sail the sea
I was made to glorify your name
It's the reason you created me

Lord, you gave me hands that I can raise
And you gave me feet so I can dance
Every week you give me seven days
I don't wanna miss another chance

CHORUS

**So I praise you, I praise you
Lord I give you all that I am
Praise you, I praise you
I'm gonna glorify you Lamb of God
I praise you, I praise you!
I praise you, I praise you**

Long before the day that I was born
This was how you wanted it to be
In the secret place where I was formed
Even there this was your plan for me

BRIDGE

Cause every time I read your Word it's crystal clear to me
That life is just a dress rehearsal for eternity
So much is defined
By this moment in time
